

Start-up Internships

Associate Start-up: AgrEco Technologies

As a valued part of the vibrant start-up eco-system at MNIT, we are pleased to extend an invitation to the students for internship opportunities at **AgrEco Technologies**, a pioneering AgriTech associate start-up at MNIT Innovation and Incubation Centre (MIIC).

AgrEco Technologies is at the forefront of revolutionizing the agricultural sector by harnessing the power of data-driven insights to drive strategic decisions and enhance business performance.

As part of our commitment to foster talent and innovation, AgrEco Technologies is offering four internship positions for a duration of eight weeks.

The internship positions are as follows:

1. Intern (Data Science)
2. Intern (Full Stack Development)
3. Intern (Digital Marketing)
4. Intern (Market Research)

Each internship offers a unique opportunity to gain hands-on experience and contribute to the mission of empowering small and marginal farmers in India, South Asia, South America, and Africa.

Here's a brief overview of the internship positions and their respective responsibilities:

1. **Intern (Data Science):**
 - Responsibilities: Collaborate with cross-functional teams, design algorithms, analyze data, build analytics pipelines, and create informative reports.
 - Requirements: Bachelor's or Master's degree in Computer Science, Statistics, Mathematics, or related field, proficiency in programming languages, and strong communication skills.
2. **Intern (Full Stack Development):**
 - Responsibilities: Collaborate with product managers, develop and maintain web applications, write clean code, implement responsive designs, and perform testing.
 - Requirements: Bachelor's degree in Computer Science, Engineering, or related field, proficiency in front-end and backend technologies, and excellent problem-solving skills.
3. **Intern (Digital Marketing):**
 - Responsibilities: Assist in digital marketing initiatives, utilize digital marketing tools, and contribute creative ideas.
 - Requirements: MBA/Engineering student interested in digital marketing, high level of ownership and creativity, and a good understanding of digital marketing tools.
4. **Intern (Market Research):**
 - Responsibilities: Conduct market research, analyze data, and contribute to strategic decision-making.
 - Requirements: MBA student with an interest in market research, a high level of ownership and accountability, and creative thinking skills.

AgrEco Technologies will offer a competitive **stipend of INR 8000/- per month (for four weeks)**, ensuring that interns are rewarded for their hard work and dedication.

If you are passionate about making a meaningful impact in the agricultural sector and are eager to gain valuable experience in a dynamic start-up environment, you are encouraged to apply for these internship opportunities.

To apply, please submit your resume along with a brief cover letter indicating your preferred internship position to himanshu.singh@agreco.in by **15 May 2024**.
